Important Rules

- This study plan is designed for students taking part in the mentioned Double Degree Program and spending the academic year 2025-2026 at Skema.
- Interested students are required to read and understand the study plan and its rules. These are to be considered binding to the successful completion of the double degree program. Changes to the study plan are usually not possible. Any request in this sense must be conveyed to the International Development Office and the Academic Coordinator, that will evaluate the request.
- The listed exams must be taken and passed in the academic year indicated in the scheme (not after). Any possible change must be formally authorized by the Academic Commission.
- During the mobility, students will be subject to the rules of the partner university.
- At the end of the program, if compliant with both Luiss and Skema academic requirements, students will obtain both the Master of Science degree in Luxury and Fashion Management (issued by Skema) and the Master's Degree in Management (issued by Luiss).
- Selected students will need to spend a minimum of 4 months' work experience (both internships or paid work) after attending courses at Skema. The work experience is compulsory to obtain the Master's Degree issued by Skema. It needs to be in the field of luxury and/or fashion management and will help the students to write the thesis. Skema will provide substantial support on the research of the position, nonetheless students are responsible to secure a work position or internship. Selection procedures are autonomously conducted by the private companies and both universities are not to be held responsible for the work selection result.

Thesis

- Students will complete their theses during their mobility period at Skema with two supervisors: one from each university.
- Both supervisors have to approve the proposal, which must meet the standards of both institutions.
- Students must respect the thesis procedures and deadlines from both institutions.
- Students are reminded that they are required to comply with the Luiss regular procedure regarding the thesis assignment, registration for the degree exam and upload of the thesis. For further information, please check the [following page](#).
- Each institution will grade the final thesis according to its own standards.
- **Graduation at Luiss:** students will defend their theses in person in Luiss in the autumn graduation session, to accommodate the credit transfer procedure from Skema to Luiss.
- **Graduation at SKEMA:**
 - Students must write the thesis individually and not in pairs, as regular SKEMA students do.
 - The thesis must be submitted at the beginning of September for SKEMA.
 - The thesis defense at Skema will take place between mid-September and mid-October, which can be done at a distance.

- Luiss students will be treated as part of the MSc program at SKEMA and are required to adhere to the SKEMA timeline. Students will be invited to choose a supervisor in January. This is usually Ivan Coste. Students are invited to make it clear on any forms, and to the future supervisor, that they will be writing the thesis individually.
- More details can be found here: [MSc Thesis information on YEP](#)

Conversion Table

Courses taken at SKEMA during the a.y. 2025-26 will be transferred to the Luiss degree according to the following grade conversion table:

Luiss Guido Carli	Skema grade
30 e lode	16 - 20
30	14 - 15,9
29	13 - 13,9
28	12 - 12,9
26	11,5 - 11,9
25	11 - 11,4
23	10 - 10,9
Non superato	< 10

Please note that the conversion table may be revised and updated ahead of the mobility in the a.y. 2025/2026 should the distribution of grades at the partner university change.

While every effort will be made to provide students with complete, accurate and timely information, Luiss reserves the right to change, amend, modify or revoke the aforementioned program. Luiss is not responsible for any cancellation or modification due to events beyond its control. If the program is cancelled or modified for these reasons, Luiss will inform all interested students in a timely manner.
